

Since returning to school 3KL have been exploring the book *The Secret of Black Rock*. They researched under water creatures to aid their writing as well as using drama to imagine falling from a boat in rough waters. This has helped them to write an excellent class story about Erin and the Black Rock.

We have also been reading *Narnia; The Lion the Witch and the Wardrobe*. The children have loved getting to know the characters and finding out more about the White Witch. We are hoping to watch the film at the end of the unit as a treat for the children.

Finally, in Geography we have been exploring human and physical features of a town by looking at maps. The children can explain the difference between a human and physical feature and are beginning to use coordinates.
