

Year 3

It has been wonderful to connect with all of the children in Year 3 on Class Dojo. We have been really proud with how resilient and mature all of the children have been with the current changes. These are unusual times, but yet you have still completed work to the best of your ability. It has been lovely to see the children engaged in the activities set, and even challenging themselves further! We have enjoyed seeing your hard work; we have also been thrilled to see some other examples of what you have been keeping yourselves busy with.

In maths, we have had children measuring and using scales in baking. We have also had children really challenging themselves to solve some very tricky maths problems based on the four rules of number. Here are some examples of the maths, and the challenges, completed so far:

As well as completing Maths and English work, the children have also been engaging with the wider curriculum. We have had children creating miniature gardens, as well as practicing their sketching skills outside in the garden.

We have seen some fantastic examples of History work recently including some brilliant examples of Stone Age History posters which have been completed during Home Learning.
